2024

Private Treaty  
**GELBIEH** Bull Offering

## *From the Breeder*

On behalf of Flatland Ranch we would like to invite you to stop in for our 23rd annual private treaty offering. Thank you to everyone who has purchased bulls in the past we truly value your friendship and loyalty and always look forward to seeing new faces. We strive to produce ranch cattle that will get out and work for you for a long time to come. These bulls are hand fed only 8lbs of grain per day, we are looking to grow our bulls not fatten them. Whether it is a calving ease, performance or a mix of both that you are seeking this set has it. Most importantly, they are backed by a cowherd that is strong uddered, good footed and built for longevity and production. Every bull is individually priced so they are never picked over. You can invest in this program with confidence as we back our bulls 100%. We're not happy until you're happy. Feel free to drop in and check out the bulls for yourself, coffee is always on. For those that are unable to get away, feel free to give us a call and we will do our best to find a bull that works for your operation.

*Chuck & Jenn Williams*

**Enter bulls full name on You Tube to watch  
his video**

### **TERMS**

We require full payment prior to delivery. Will deliver free for 300 km and will work with you on longer distances

### **HEALTH**

All bulls will be semen tested and vet checked before delivery. All are on a full herd health program.

We are certified in the verified beef plus program

### **FEED**

Bulls are given free choice dry hay and hand fed only 8lbs of balanced ration per day. Nothing more. We are fully committed to raising bulls with longevity that will get out and work for you for years to come

Hickory has been a great addition to our program. He has extra length of spine, big hip and tons of natural muscle that runs all the way though him. Moderate birth weight, eye appealing and a good foot under him. He has given us some great calves with good vigor and growth. **Homozygous Polled**

One look at this bull and we knew we had to have him. Dark cherry red coat, good solid bone and foot under him, and the most amazing disposition. With this being his first calf crop we are pleased with what he has done so far and can't wait for more of his prodigy to hit the ground. **Homozygous Polled**

With his first calf crop on the ground, we are quite pleased with this bull. He is a big mid-dled, good tempered bull with lots of testicle. He has some growthy bulls in the sale pen and some fancy heifer calves in the replacement pen. His pedigree is backed by some really exceptional animals. **Homozygous Polled**

We purchased this bull to put in our heifer pen for his calving ease and growth. We were initially drawn to him for his easy fleshing thickness all the way through him. He is easy to work with and has given us such nice calves on our heifers that we decided to put him on some second calvers as well this year. **Homozygous Polled**

This home raised bull is off one of our favorite cows that so consistently gives us great calves. His sire constantly put great replacement in the heifer pen and top bulls in the sale pen. An eye catching bull with extra length of spine and well muscled throughout. **Homozygous Polled**
